

Snow Mountain Monastery

Community Work List

Saturday, Sept. 14th, 2024

General Work:

Priority:

- ◆ **Dig 40' trench 1' wide x 2' deep for new conduit & wire that will be used with new water pump to be installed on 9/24/24**
 - ◆ **Cut plants around old steel tank so it can be removed for future Earth Store Statue.**
-

- ◆ Thin southern forest area by cutting tagged trees for future new evergreen trees.
- ◆ Setup outdoor canopies on house deck for lunch.
- ◆ Landscape around and clean the Arhats.
- ◆ Start preparing forest area for planting new evergreens by clearing underbrush and thinning existing small Alder and Cottonwood growth.
- ◆ Uproot Japanese Knotweed along Arhat Path, Scotch Broom (Scot's broom) and burdock, and other kinds of noxious weeds where found as well as cut and remove ivy from tree trunks.
- ◆ Organize garage and shed tools and supplies.
- ◆ Mow and weed trim fields. Trim weeds and grass around buildings and tent poles. Cut growth (suckers) from base of large trees and trim low branches.
- ◆ Fix western goat shed door and re-hang it properly.
- ◆ Clean all windows as well as 2nd floor outside windows.
- ◆ Dust, clean, and sweep house interior and Wax main house floor.
- ◆ Apply UV window film to living room and kitchen windows.

Note: People should bring [work clothes, gloves, work/rain boots, and masks](#). Also some additional tools may be required, like weed trimmers, hand tools, etc.
